Join the over 1350 health and social care providers who have found this free course beneficial

FREE

Tier 1 (3 Weeks)
Foundations in Geriatrics for Interprofessional Teams

Focused on foundational concepts such as what older adults want, the interprofessional team approach, age-related changes, ageism, communication, processes of care and frailty

> "This course didn't just teach me something new—it changed how I think about older adults and how I practice every day."

Tier 2 (8 Weeks)
Enhanced Knowledge and Skill Development in the Care of Older Adults

Focused on applying to care the learning from the following topics: function, medication, delirium, dementia, responsive behaviours, mental health, substance use, pain, sleep, falls, nutrition, continence, intimacy & sexuality, caregivers, risk, social connectivity, care planning and system navigation.
